MePOS® is a complete solution for Point of Sale which works straight out of the box. It includes the best available hardware and software, ensuring that retailers and hospitality businesses can grow and thrive

Hardware

MePOS® hardware is leading edge, best in class technology, powered by **Lenovo**.

“Within 5 years mPOS transactions will represent 20% of all transactions”

Juniper Research Study

Mobile Point of Interaction

Detach the tablet to stock take, use in the back office or interact with customers. Attach the payment device to give a fully mobile point of sale and process transactions anywhere in store.

One power supply

MePOS® is powered from one power cord so no messy cables at Point of Sale.

Fully secure

MePOS® is fully secure with tablet and payment device locked in place.

Receipt printer and peripherals

MePOS® includes a thermal receipt printer. Peripherals like cash drawers, scanners and scales can be added easily with USB and RJ11 connections.

Looks fantastic

MePOS® is sleek and elegant with high gloss white or black panels and a small footprint. Perfect for modern Points of Sale and stores that care about appearance.

Software

MePOS® includes a 12-month license for **Epos Now**'s award winning Point of Sale software, suitable for any industry.

App Store

The Epos Now App store has over 100 apps including Shopify, Sage and Quickbooks to extend and integrate Point of Sale with all aspects of your business (additional charges may apply for 3rd party apps).

Manage your business

Epos Now software can manage inventory, customer loyalty programs, act as a CRM and manage in store promotions and pricing strategies.

Easy to use

Software is incredibly easy to use and has won awards for usability. Your staff will be up and running in no time, with full training included.

Multi location

Works seamlessly across multiple locations.

Reporting

Robust reporting on key business information. Over 100 management reports, tailorable to your business priorities, all viewable remotely, even from your smartphone.

On & offline functionality

Cloud based software ensures data is always synchronized and backed up and will continue to work even if the internet drops out. Transaction data will automatically synchronize when reconnected.

Why MePOS®

Over **9,500,000+** transactions processed

Epos Now is used in **100+ countries**, worldwide

Epos Now software is 5+ rated online with over 1000 reviews
